

Teledoorbell

Bothersome sales people or canvassers need not be approached.

Unique Features

High quality hands-free communications between guest at entrance door and any connected household telephone.

Up to two minutes to pick up a telephone to talk with a visitor.

Can work in conjunction with existing door bell.

When a user is on an active call on the telephone and the door bell rings, TDB provides a unique tone over conversation.

It can also be used at commercial sites to indicate access door request.

Can also work behind a telephone system.

Original, innovative and unique

Opens door or gate with press of a button

Restricts, optionally, long distance calls

Built to last

Engineered for convenience and security

Latest in intercom technology

Let it work for you!

Unmatched in convenience, this unique product provides you with the following:

System will work as a replacement or in parallel with any standard doorbell.

High quality audio conversation between a door speaker and any connected home telephone and supports two entrances.

Distinctive ring alert when door speaker button is depressed.

Monitor the entrance at any time by simply entering in a unique touch-tone code from any connected telephone.

Capable of restricting 1+ (long distance), 011 (international) and 1 + 976 telephone numbers. This function is pass code protected and can be activated or deactivated, by the homeowner, from any connected telephone.

No longer do unwanted solicitors need to be seen. Now, you won't have to open your door to the unknown. Simply use the telephone and pre screen all visitors before approaching the door. Threatening home invasion type situations need not develop with the use of this unique system. In the event that one develops, simply hang up on the door speaker and dial 911, easy since you are already on the telephone!

The *TeleDoorBell* also provides a built-in contact closure to operate your gate or door strike. Once connected to these readily available strikes, entry can be provided in a truly automatic fashion.
